

Instructor Getting Started Guide

Welcome to the OpenStax Community!

Here is how to get started with your new OpenStax textbook:

1

REPORT YOUR ADOPTION

Go to openstax.org/adoption to fill out our 2-minute survey. Letting us know you are using OpenStax helps us to secure funding for future titles and resources.

2

GET THE BOOK

Visit openstax.org/subjects and select your book. Click on "Get the book" to choose your preferred format. We recommend online - our responsive design works seamlessly on any device.

3

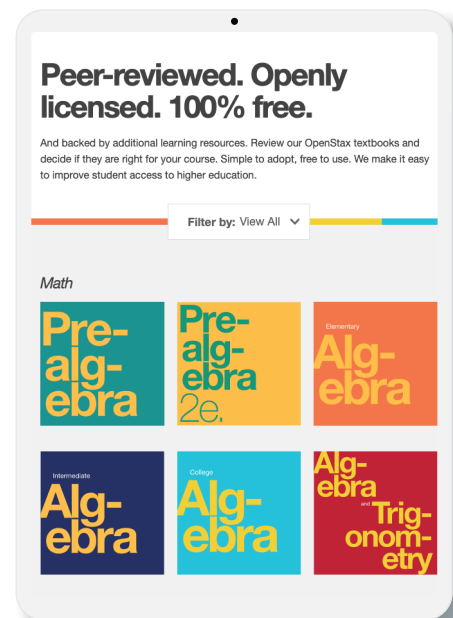

ACCESS INSTRUCTOR-ONLY RESOURCES

OpenStax books also come with free, aligned instructor resources! Types of resources like lecture slides and test banks vary by title, but stay on the lookout because we are always adding more materials. Create a free instructor account to see what's available for you.

4

ORDER PRINT VERSIONS

OpenStax digital versions are free, but some students prefer print. To provide the most choice, we offer printed versions at very reasonable prices. We recommend placing a small order with your bookstore: openstax.org/bookstore-suppliers.
